

Community Flu Clinics 2009

The clinics below: will offer H1N1 vaccine to those in the priority group with or without a family doctor. Also, seasonal flu vaccine is available to seniors 65 years and older at various clinics.

H1N1 vaccine will be offered to the general public as more vaccine is made available. Please tune in to local radio or visit this site for weekly updates, as currently scheduled clinics may expand or additional clinics may be held in your community.
