The Grey Bruce Health Unit present Pathways to IPAC Success... in the Dental Profession.

Infection Prevention and Control (IPAC) is a top priority to ensure the safety of staff and clients. We welcome Dr. Larisa Naderiani from the RCDSO to speak about the revised standard of practice, and the role of the RCDSO during lapse investigations; and Public Health Ontario Regional IPAC Specialist will provide a summary of best practice documents and a review of IPAC lapse and investigations.

The educational event is eligible for 3 CE points.

This event is open to all dental professional.

Event Objective:

Equip dental professionals with IPAC tools and resources to evaluate, revise and implement best practice
