

# Yearly Opioid Situation Report

## Grey Bruce, Jan-Dec 2025

**The Opioid Situation Report for 2025** outlines details of the reports of suspected opioid related overdoses received through the Grey Bruce Early Warning System. For this system, reports of suspected opioid-related events are sent to Public Health primarily from EMS, plus Police, Fire, and our 211 *Report a Bad Drug* Online Form/Call-in process. If warranted, an alert designed to advise the community of potential increased risk related to opioids in the area is issued to community partners and the general public to ensure a rapid, coordinated, multisector response to local opioid-related events.

Year	# of Opioid-related Overdoses	# of Opioid-related Fatalities	# of Alerts	# of Media Releases
2024	215	26	31	10
2025	83 (61% decrease)	6 (77% decrease)	7	0

Naloxone was used in 68 of the reported overdoses and was **successful in reversing the overdose in 66 cases.**

## Reported Drugs

Information on suspected substances provided in 61/83 reports

**Distributed 4548 Naloxone Kits**

**Trained 2052 people to use Naloxone**
