# School Lunch Your Kids Will Munch

## We all have a role to play

Parents and caregivers decide **what** to pack in their kid's lunch.

Kids decide **what and how much** to eat from what is available. It's okay if they are less hungry on some days than others.

School decides **when and where** students

Check in with your school to see if food is provided throughout the day.
Some schools may offer a Student Nutrition Program.

# **Food Safety Tips**

- Insulated lunch bags, freezer packs, and insulated containers help keep cold foods cold and hot foods hot. Warm the thermos with boiling water before filling it with steaming hot food.
- Wash all vegetables and fruit before packing.
- Compost or throw out perishable foods that come back home. Whole fruits and nonperishable snacks can be re-packed.
- Wash reusable containers and utensils each day with soap and hot water.
- Teach your kids to wash their hands before and after eating.
- Check in with your school about their policy on food allergies and foods that cannot be sent.

# Does your school follow a Balanced School Day?

- Your child still needs the same amount of food throughout the day.
- Try making a lunch kit using reusable containers so kids can choose what and how much to eat at each break.

# Try adding foods from each box below

#### Vegetables and Fruit

- broccoli or cauliflower
- sugar snap peas
- okra
- leafy greens (lettuce, bok choy)
- · roasted eggplant or squash

Dips like

#### **Whole Grain Foods**

- rice or wild rice
- pasta
- bagels, tortillas, pitas, breads, buns, or bannock
- English muffins or crackers
- · chapatti, roti, or naan
- quinoa, oatmeal or other cooked grains
- cereal
- · pancakes or waffles
- muffins
- granola bars

## **Time Saving Tips**

Children usually have about 20 minutes to eat lunch at school. Try these time saving tips:

- Peel foods and cut them up into bite-sized pieces
- Have your child practice eating lunch and opening containers

Don't forget a reusable water bottle
