Dear Parent or Guardian:

In Ontario, the Immunization of School Pupils Act states that children attending school must be immunized or in the process of becoming immunized, unless they have legal exemptions.

Please help us protect the health of children in school by making sure your child is properly immunized and by providing the Public Health Unit with a record of your child's immunizations.

If your child's immunization is not up-to-date, please contact your doctor or Public Health. Thank you for your help.
