

Overdose Alert.

January 11, 2024

Grey Bruce Public Health has been notified of multiple recent reports of suspected opioid related overdoses in Saugeen Shores and Hanover areas over the past several days, including 3 non-fatal overdoses in the past 48 hours as well as reports of toxic lime green fentanyl causing drug poisonings requiring treatment with Naloxone in the Owen Sound area.

Follow these harm reduction practices:

- **Not using alone.** When using with someone else, don't use at the same time. Call or text NORS 1-888-688-6677 if using alone.
- **Get overdose prevention training & carry a Naloxone kit.**
- **Take extra caution if mixing substances.** Mixing substances can increase the risk of harm and drug poisonings.
- **Go Slow.** Always start with a low dose and increase slowly, especially if trying something new or restarting use.
- **Use only new supplies and avoid sharing supplies.** This reduces the risk of getting or passing on an infectious disease. Supplies are available at GBPH and community partners.
